

MIDAS VASCULAR SOFTWARE

Efficiency, Accuracy and Accountability in Clinical Reporting

SCAN

MIDAS

FINAL REPORT

SAVE TIME

Without MIDAS, preparing a comprehensive report for arterial or venous mapping could take up to 20 minutes.

Automatically or manually enter the required measurements and let MIDAS generate instantaneous written reports with worksheets and images for you to review.

STANDARDISING VASCULAR REPORTING

No need to repeat scans. All appropriate detail provided for the referrer and Surgeon.

Built-in MIDAS database will also assist practice accreditation.

EASILY MODIFIED TO SUIT YOUR WORKFLOW

Your own diagrams can be added, surface and deep vessels can be drawn automatically or by hand, report formats and wording can be customised to suit each reporting specialist.

WITH MIDAS, ONE MOUSE CLICK AND IT'S READY!

Call MIDAS Software Solutions on **1300 369 559** to discuss how we can assist in optimising your reporting workflow.

MIDAS is now available on a pay per exam model. Even if you only do a few exams per week, you can still get all the benefits of MIDAS!

Ask us how!

MIDAS VASCULAR SOFTWARE

MIDAS BENEFITS:

- MIDAS can be individually customised, allowing your unique work flow requirements to be included.
- Back-up option means all patient data and reports can be automatically duplicated and protected.
- MIDAS has a range of Arterial and Venous reporting built-in and we can optionally add new procedures when required.
- Able to be optionally interfaced with other software in your practice.
- Able to print reports and save them in a format suitable for your practice to send to referrers and physicians.
- MIDAS works on a single workstation, laptop, windows tablet, iPad, Android, Mac OSX or on a server for multiple users across the web. Also available in the cloud on a per exam monthly subscription.
- Locally developed in Melbourne by Prof. Christine Mingins with national support from MIDAS Software Solutions Pty Ltd.
- MIDAS support, enhancements and upgrades are provided as part of the software subscription.
- MIDAS can be optionally interfaced to any ultrasound system with DICOM SR/MPPS for automatic measurement data and image transfer.
- Cloud based - No expensive hardware to maintain.
- Cloud based - Hassle free automatic data backup.
- Comparison of previous examination images, reports and diagrams easily viewed within the current exam, making comparison and follow up quick, easy, and accurate.

At MIDAS, we specialise in innovative software solutions to empower your business. Our products and solutions can help you make the most of your investment in information technology. Please call us at **1300 369 559** or visit our website to learn more.
